Dear Natasha,

thank you for your last letters. We are fine. And you? We hope you and your family are in the best of health. We are glad that you finished 7th standard. You are doing very good in school.

We thought you might be interested in hearing about the pandemic situation here. Our country is also affected by coronavirus. We have limited movement, we wear respirators and we can't leave the district. We can't travel, so we are still at home. We can't go to a theatre, a cinema and on trips or events and do some sports because everything is closed. The pandemic situation is not very good here.

We have online lessons, too. Our school is closed for about 3 months. Studying online is not as good as studying at school, because it is more difficult to understand things we learn. Some subjects are cancelled. Sometimes it's not so bad but we miss our friends. What do the lessons look like in your country?

Thank you for thinking and praying for us. We wish you good luck with studying. Say hello to your family, stay safe and we are looking forward to hearing from you soon.

Best regards pupils and teachers
